DESCRIPTORS	*College Graduates, *Directories, *Higher Education, *Spanish Americans, *Surveys

ABSTRACT

In this recruiting directory, information is provided on junior and senior Spanish-surnamed students from more than 800 United States colleges and universities. The table of contents shows schools alphabetically by state; each graduating student is then listed alphabetically by state, with information given on his school, discipline (major), and date of graduation (month and year); tables show total numbers of Spanish-surnamed students graduating within each discipline (arranged according to state), their school, and their date of graduation; and the final table provides a total of all Spanish-surnamed persons graduating within each discipline in 1971-72. (MJB)

INTRODUCTION

Spanish Surnamed American College Graduates is an annual project of the Cabinet Committee on Opportunity for the Spanish Speaking. In compiling this recruiting directory we contact more than 800 colleges and universities throughout the United States in areas where there are significant numbers of Spanish speaking, Spanish surnamed people. This year we received useable information from approximately 30 percent of the institutions contacted. While the agency has no authority to require that the schools cooperate in this effort, it has been noted that the number of positive responses has increased significantly as institutions become better educated to the goals of the Cabinet Committee and the purposes of the project.

Compilation of the 1971 edition presented new and unique problems, partially due to the fact that, for the first time, we requested the names of both juniors and seniors. This was in response to a heavy demand for this information from recruiters. In certain instances we could not determine graduation dates for the students within a given school. In these cases all students were listed as 1971 graduates. In other cases, we were unable to obtain home addresses for some students because the information was not available from the school or because school policy regarded such information as confidential. For this reason, only the school address is given for some students. Where ambiguous abbreviations appear, especially for indicating major fields of study, clarification was not readily obtainable. As many schools as possible were contacted for information that was left out of the reporting forms. However, as the final deadline for publication drew near, it became necessary to forego any follow-up effort and merely accept the information which had been reported.

Because the number of students graduating from Miami-Dade Junior College of Florida is so great, it has been necessary for us to process this material separately and publish it as a supplement. This supplement will also contain material from other schools that arrived after our November 30 deadline and will receive the same distribution as the first volume.

The information contained in the directory is listed as follows:

1. Table of Contents

   Listing of schools alphabetically by state and school

2. Graduating Students

   a. Alphabetically by state
   b. Alphabetically by school within the state
   c. Alphabetically by discipline
   d. Chronologically by date of graduation (month and year)
   e. Alphabetically by student surname

3. Recruiting Tables

   Total numbers of students graduating within each discipline, arranged according to state, school and date of graduation. The final table is a total of all persons graduating within each discipline.

We wish to express our deepest gratitude to the officials and staff of Sandia Laboratories in Albuquerque, New Mexico. They provided the computer time and added technical expertise which made this publication possible. We gratefully acknowledge the efforts of the educators who, at the expense of many staff hours, cooperated with us in producing what is intended as a tool for improving employment opportunities and engendering economic progress for some twelve million Spanish speaking Americans.

SPANISH SURNAMED AMERICAN COLLEGE GRADUATES, 1971-72

PART II

RECEIVED
JUL 16 1971
NMSU
E.R.I.C.

Compiled By

The Cabinet Committee On Opportunity for the Spanish Speaking
Suite 712, 1800 G St., NW., Washington, D.C. 20506

This Publication Is Available On A Gratis Basis,

RC005383

ERRATA

*

Pages 94-172 - Miami-Dade Junior College graduates divided into three groupings.

Page 190 - New Mexico State University appears out of alphabetical order.

Page 286 - Graduate from Golden West College, Huntington Beach, California in nursing.

**

The following are instances in which student records appear out of order, either immediately preceding or immediately succeeding the listing for the school to which they belong:

Page 11 - California State College at Los Angeles

Page 76 - University of California at Los Angeles

Page 85 - University of California at Santa Barbara

Page 197 - Eastern New Mexico University

Page 198 - New Mexico State University
